

Test Case ID	Title	Description	Precondition	Test Steps	Expected Result	🕒 Test Type	🕒 Priority	🕒 Status	Remark
AUTH-001	Valid Sign Up	Verify user can sign up with valid credentials.	User is on the sign-up page.	1. Enter valid name, email, and password 2. Click on the 'Sign Up' button	User is registered and redirected to dashboard.	Functional	High	Pass	
AUTH-002	Sign Up with Existing Email	Verify error is shown when signing up with an already registered email.	Email address is already registered.	1. Enter registered email and password 2. Click on the 'Sign Up' button	User can not register and receives an error message indicating email already exists.	Negative	Medium	Pass	
AUTH-003	Sign Up with Invalid Email Format	Verify error is shown for invalid email format during sign-up.	User is on the sign-up page.	1. Enter invalid email format (e.g. 'user@com') 2. Enter valid password 3. Click 'Sign Up'	User receives a validation error about email format.	Negative	High	Pass	
AUTH-004	Sign Up with Short Password	Verify error is shown for password shorter than minimum requirement.	User is on the sign-up page.	1. Enter valid email 2. Enter short password (e.g. '123') 3. Click 'Sign Up'	User receives an error indicating password is too short.	Negative	High	Pass	
AUTH-005	Login with Valid Credentials	Verify user can login with correct email and password.	User is already registered.	1. Enter registered email and password 2. Click on 'Login'	User is redirected to dashboard.	Functional	High	Pass	
AUTH-006	Login with Invalid Password	Verify error is shown for incorrect password.	User is already registered.	1. Enter correct email and wrong password 2. Click on 'Login'	User receives error indicating invalid credentials.	Negative	High	Pass	
AUTH-007	Login with Unregistered Email	Verify login fails with an unregistered email.	User email is not in the system.	1. Enter unregistered email and any password 2. Click on 'Login'	User receives error stating account not found.	Negative	Medium	Pass	
AUTH-008	Empty Fields Validation	Verify error messages are shown when trying to sign up with empty fields.	User is on the sign-up page.	1. Leave all fields blank 2. Click 'Sign Up'	Validation errors shown for required fields.	Negative	High	Pass	
AUTH-009	SQL Injection in Email Field	Ensure input validation protects against SQL injection in email field.	User is on login or sign-up page.	1. Enter SQL code in email field (e.g. 'test@example.com' OR '1'='1') 2. Click 'Login' or 'Sign Up'	Input is rejected or sanitized; no DB breach occurs.	Security	High	Pass	
AUTH-010	Session Management after Login	Verify user session persists after login and expires after logout.	User is logged in.	1. Login successfully 2. Navigate across dashboard 3. Logout 4. Try accessing dashboard via back button	User is redirected to login after logout; session is terminated.	Security	Medium	Pass	
AUTH-011	Valid Google Sign Up	Verify user can sign up with google.	User is on the sign-up page.	1. Click on the Google button 2. Select google account 3. Select the continue button	User is registered and redirected to dashboard.	Functional	High	Pass	

Test Case ID	Title	Description	Precondition	Test Steps	Expected Result	🔗 Test Type	🔗 Priority	🔗 Status	Remark
AUTH-LOG-001	Log out via sidebar	Verify user can log out using the "Logout" item in left sidebar	User is logged in and on any page	1. Click "Logout" in sidebar	Redirected to Login page; session terminated; success toast/message shown	Functional	High	Pass	
AUTH-LOG-002	Log out from header/profile menu	Verify user can log out from profile/avatar menu (if available)	User is logged in and header menu visible	1. Open profile menu 2. Click "Logout"	Redirected to Login page; session terminated	Functional	Medium	Out of Scope	
AUTH-LOG-003	Invalidate tokens on logout	Ensure access/refresh tokens and user data are cleared from storage	User is logged in	1. Click "Logout" 2. Inspect cookies/localStorage/sessionStorage	All auth tokens/user objects removed or expired; no residual PII	Security	High	Pass With Comment	
AUTH-LOG-004	Blocked access after logout	Authenticated routes are inaccessible after logout	User has just logged out	1. Manually navigate to a protected URL (e.g., /dashboard)	User is redirected to Login (401/302); no protected content rendered	Security	High	Pass	
AUTH-LOG-005	Back button after logout	Ensure browser back does not show sensitive content after logout	User has just logged out	1. Press browser Back to previously protected page	Login page (or redacted view) shown; APIs blocked; no sensitive data	Edge	High	Pass	
AUTH-LOG-006	Double-click logout	Prevent duplicate requests if "Logout" clicked rapidly	User is logged in	1. Double-click "Logout" quickly	Only one logout processed; no errors or duplicate toasts	Negative	Low	Pass	
AUTH-LOG-007	Network failure during logout	UI handles server error gracefully	User is logged in; simulate offline	1. Turn off network 2. Click "Logout"	Graceful error or local sign-out + redirect; no broken state	Negative	Medium	Pass	
AUTH-LOG-008	Expired session then logout	Logout action with already-expired session behaves predictably	Session has expired	1. Click "Logout"	Redirect to Login with info message; no error page	Negative	Medium	Pass	
AUTH-LOG-009	Localization of messages	Logout messages/localized strings display properly	App in a non-default locale	1. Change language 2. Click "Logout"	Logout confirmation/toast shown in selected language	UI/UX	Low	Out of Scope	

Test Case ID	Title	Description	Precondition	Test Steps	Expected Result	🔍 Test Type	🔍 Priority	🔍 Status	Remark
DASH-001	View Uploaded Contracts on Dashboard	Verify that uploaded contracts are listed on the dashboard.	User has successfully uploaded one or more contracts.	1. Login 2. Navigate to dashboard	Uploaded contracts are listed with names, dates, and analysis status.	Functional	High	Pass	
DASH-002	Open Contract Report from Dashboard	Verify that user can open clause analysis report from dashboard entry.	Contract has completed clause analysis.	1. Click on a contract in dashboard 2. View full report	Clause-level report opens successfully.	Functional	High	Pass	
DASH-003	Verify Report Summary Display	Check that each contract entry shows a brief summary (e.g., #clauses, #risks).	Contract has been analyzed.	1. Upload and analyze contract 2. Return to dashboard	Summary stats (e.g., 12 clauses, 3 risky) are shown in card view or row.	Functional	Medium	Pass	
DASH-004	Search Contracts on Dashboard	Verify that user can search uploaded contracts by name or keyword.	User has multiple uploaded contracts.	1. Type contract name or keyword in search bar 2. Observe filtered list	Matching results are shown in dashboard.	Functional	Medium	Pass	
DASH-005	Sort Dashboard Entries	Verify that contracts can be sorted by upload date or risk level.	User has uploaded multiple contracts.	1. Click on sort dropdown 2. Select sort criteria	Contracts are sorted accordingly.	Functional	Low	Pass	
DASH-006	Handle Empty Dashboard State	Verify that user sees a helpful message when no contracts are uploaded.	New user with no uploads yet.	1. Login to dashboard with no uploads	User sees empty state message (e.g., 'No contracts uploaded yet').	Edge	Medium	Pass	
DASH-007	Unauthorized Access to Another User's Report	Verify that users cannot view reports uploaded by other users.	Two users exist with separate uploads.	1. User A logs in 2. Attempt to access User B's contract via URL	Access denied or redirected with error.	Security	High	Pass	

Test Case ID	Title	Description	Precondition	Test Steps	Expected Result	🔗 Test Type	🔗 Priority	🔗 Status	Remark
TC-PROFILE-01	View Basic Info Tab	Verify if user profile details (name, email, phone) display correctly	User is logged in	Go to "My Profile" > Basic Info tab	User's name, email, role, and personal info are displayed	Functional	High	Pass	
TC-PROFILE-02	Edit Profile Button Click	Check if clicking "Edit Profile" button redirects to edit form	User is on Basic Info tab	Click on "Edit Profile"	Redirects to editable profile form	Functional	Medium	Pass	
TC-PROFILE-03	Validate Contact Info Format	Ensure contact info (email & phone) follow standard format	User info loaded	Observe email & phone field formats	Email uses @domain.com, Phone begins with + & numbers	Validation	Medium	Pass	
TC-BILL-01	View Current Plan Summary	Ensure current plan details (name, cost, expiry, usage) are displayed	User has a billing plan	Go to "My Profile" > Plans & Billing	Current plan summary shows plan name, cost, expiry, usage bar	Functional	High	Pass	
TC-BILL-02	Upgrade Plan CTA	Validate "Upgrade" button is present and responsive	User has an active plan	Click "Upgrade" button	Redirects to upgrade plan screen or modal	Functional	Medium	Pass	
TC-BILL-03	Payment Method Actions	Check functionality of "Delete" and "Change" payment method	Payment method added	Click on "Delete" or "Change"	Action triggers respective modal/flow	Functional	High	Pass	
TC-BILL-04	Billing History Sorting	Validate sorting functionality (Newest, Oldest) for billing records	Billing history present	Use sort dropdown > select "Newest" or "Oldest"	Billing records reorder based on date	Functional	Medium	Pass	
TC-BILL-05	Filter Billing Records	Check filter buttons (Plan, Status, Date) work correctly	Billing history available	Apply each filter individually	Billing table updates with filtered results	Functional	High	Pass	
TC-BILL-06	Download Billing History	Verify clicking "Download" downloads billing history	Billing data present	Click "Download" button	Billing data is downloaded (e.g., PDF or CSV)	Functional	Medium	Pass	
TC-UI-01	Tabs Navigation	Validate user can switch between all tabs (Basic Info, Billing, Team, etc.)	User is logged in	Click through each tab at top of profile section	Each tab content loads correctly	Navigation	High	Pass	
TC-UI-02	Validate Usage Bar Color	Ensure usage bar visually indicates usage level (e.g., blue bar)	Plan with usage limit	Observe usage bar color	Bar reflects usage proportion (e.g., 38 of 50 contracts)	UI/UX	Low	Pass	
TC-PASS-01	Open Change Password Modal	Ensure modal opens from the top nav tab	User clicks "Change Password" tab	Click on the tab	Password modal displays with input fields	Functional	High	Pass	
TC-PASS-02	Required Fields Validation	Validate that all fields are required	Modal is open	Leave one or more fields empty, click Save	Validation error is shown	Validation	High	Pass	
TC-PASS-03	Password Mismatch Error	Ensure mismatch between new & confirm password triggers error	Modal is open	Enter different new & confirm passwords	Error: "Passwords do not match" shown	Validation	High	Pass	
TC-PASS-04	Password Strength Rule	Ensure password meets security policy (length, complexity)	Modal is open	Enter weak password and click Save	Error or tip for password rules shown	Security	High	Pass	
TC-PASS-05	Submit Password Change	Validate correct submission updates password	All fields filled correctly	Enter valid current, new, and confirm passwords and click Save	Password is updated and success message appears	Functional	High	Pass	
TC-PASS-06	Masking of Password Fields	Ensure password input is masked (hidden)	Modal open	Type into fields	Password is obscured (dots or asterisks)	UI/UX	Medium	Pass	
TC-PASS-07	Toggle Password Visibility	Verify that eye icon toggles visibility	Modal open	Click visibility icon in any field	Password becomes visible or hidden	UI/UX	Medium	Pass	
TC-SEC-01	View Security Info	Ensure user's email, phone, and profile name are visible	User is logged in	Navigate to "Security & Privacy" tab	Info displays correctly under Security Settings	Functional	High	Pass	
TC-SEC-02	Redirect to Change Password	Check if clicking "Change Password" redirects or opens modal	User is on tab	Click "Change Password" link	Password change modal displays	Functional	High	Pass	
TC-SEC-03	Toggle Email Notifications	Ensure email notification toggle works	User is on tab	Toggle "Email Notifications"	Switch changes and updates preference	Functional	Medium	Pass	
TC-SEC-04	Toggle In-App Notifications	Ensure in-app toggle works as expected	User is on tab	Toggle "In-App Notifications"	Preference updates accordingly	Functional	Medium	Pass	
TC-SEC-05	View Access Control List	Validate that access control table loads correctly	User is on tab	Scroll to Access Control section	Names, roles, and access levels display properly	Functional	High	Pass	
TC-SEC-06	Edit Role in Access Control	Ensure "Edit Role" action is working	Table has users	Click "Edit Role" on a row	Role update modal/screen opens	Functional	High	Pass	
TC-SEC-07	Delete User from Access Control	Ensure "Delete" button works	Access Control row has Delete option	Click "Delete"	User row is removed and confirmation shown	Functional	High	Pass	
TC-SEC-08	View Login Activity	Ensure login info (device, browser, time) is displayed	Recent activity exists	View "Recent Login Activity"	Info shows device, browser, location, and time	Functional	Medium	Pass	
TC-SEC-09	Reset Active Sessions	Validate that session reset button works	User is logged in	Click "Reset All Active Sessions"	All sessions except current are invalidated	Security	High	Pass	
EDGE CASES									
NEG-PROFILE-01	Edit Profile with Empty Fields	Check behavior when saving profile with empty required fields	User clicks Edit Profile	Clear required fields and click Save	Error messages displayed for each empty required field	Validation	High	Pass	

Test Case ID	Title	Description	Precondition	Test Steps	Expected Result	🔍 Test Type	🔍 Priority	🔍 Status	Remark
NEG-PROFILE-02	Enter Invalid Phone Format	Ensure error shown for incorrectly formatted phone number	User on Edit Profile	Enter invalid phone (e.g., 'abc123') and save	Error: Invalid phone number format	Validation	High	Pass	
NEG-BILL-01	Upgrade Plan with Payment Failure	Simulate upgrade where card is declined	Valid user with card	Click Upgrade, simulate card decline	Upgrade fails with error message	Negative	High	Pass	
NEG-BILL-02	Download Billing with No Records	Check behavior when billing history is empty	No billing records exist	Click Download	Message: 'No billing history available'	Edge	Low	Pass	
NEG-PASS-01	Submit Without Current Password	Ensure current password is required	Modal open	Leave current password blank, fill others	Error: 'Current password required'	Validation	High	Pass	
NEG-PASS-02	Use Same Old Password	Ensure new password must differ from old one	User on modal	Enter same old and new password	Error: 'New password must differ from current'	Validation	Medium	Pass	
EDGE-PASS-01	Password Max Length	Check behavior when max-length password is used	Modal open	Enter 100-character valid password	Password accepted if meets policy	Edge	Low	Pass	
NEG-SEC-01	Disable Both Notifications	Ensure user can disable all notifications	User on Security tab	Toggle both notifications off	Settings save successfully	Edge	Medium	Pass	
EDGE-SEC-01	Access Control with Many Roles	Verify performance with many access entries	Many users with roles added	Scroll and view Access Control	Table renders all roles without lag	Edge	Low	Pass	
NEG-DEL-01	Cancel Delete Flow	Ensure cancel button fully closes modal with no state change	Modal open	Click No, Cancel	Modal closes and no deletion initiated	Functional	Medium	Pass	
EDGE-DEL-01	Repeated Delete Clicks	Prevent duplicate deletion requests	User on modal	Click 'Yes, Delete' multiple times	Only one request processed	Edge	Medium	Pass	

Test Case ID	Title	Description	Precondition	Test Steps	Expected Result	🔗 Test Type	🔗 Priority	🔗 Status	Remark
SUB-001	Subscribe using valid card	Verify user can successfully subscribe using valid credit/debit card	User is logged in and on subscription page	1. Click "Subscribe" 2. Enter valid card details 3. Confirm payment	Subscription is activated; status shows "Active"	Functional	High	Pass	Test various invalid formats
SUB-002	Subscribe with invalid card	Ensure payment fails with invalid payment details	User on subscription page	1. Enter expired/incorrect card details 2. Attempt to subscribe	Payment rejected with clear error message	Negative	High	Pass	
SUB-003	Subscribe without card	Verify form validation when payment details are missing	User on subscription page	1. Leave payment fields blank 2. Click "Subscribe"	Error messages shown for required fields	Negative	Medium	Pass	
SUB-004	Cancel Subscription (Free or Paid)	Verify user can cancel an existing subscription	User has an active plan	1. Go to Subscription page 2. Click 'Cancel Plan' 3. Confirm	Subscription status updates to 'Canceled' or 'Pending Cancel'	Functional	High	Pass With Comment	It doesn't show that it is pending cancel Test around 3-7 days before expiry
SUB-005	Renewal Reminder Notification	Check that user receives renewal reminder email prior to expiry	Active subscription nearing expiry	1. Wait until reminder period 2. Check email inbox or notification panel	User receives timely reminder	Functional	Medium		
SUB-006	Prevent access after subscription expiry	Ensure access is revoked or limited after subscription lapses	Subscription expired	1. Let subscription expire 2. Attempt to access premium features	Access denied with prompt to renew	Security	High		
SUB-UPG-01	Upgrade to Starter Plan	Allow user to upgrade from Free to Starter	User on Free plan	1. Click 'Upgrade Plan' on Starter 2. Enter payment details 3. Confirm	User is moved to Starter tier with up to 10 contracts/month	Functional	High	Pass	
SUB-UPG-02	Upgrade to Pro Plan	Allow user to upgrade to Pro with or without free trial	User on Free or Starter	1. Click 'Upgrade Plan' on Pro 2. Start trial or pay 3. Confirm	User moves to Pro plan with extended features	Functional	High	Pass	
SUB-UPG-03	Upgrade to Business Plan	Ensure user can upgrade to Business plan	User logged in	1. Click 'Upgrade Plan' on Business 2. Enter payment details 3. Confirm	Business plan activated with unlimited contracts & audit logs	Functional	High	Pass	
SUB-UPG-04	Upgrade to Enterprise Plan	Allow upgrade to Enterprise with advanced compliance options	User logged in	1. Click 'Upgrade Plan' on Enterprise 2. Enter payment info 3. Confirm	Enterprise plan activated with all features	Functional	High	Pass	
SUB-007	Subscribe to Add-ons	Verify user can add optional features to active plan	User on any paid plan	1. Click an Add-on (e.g., AI Clause Trainer) 2. Confirm	Add-on activated and linked to subscription	Functional	Medium	Pass	
SUB-008	Switch Billing Cycle	Validate toggle between Monthly and Yearly views	Subscription tab open	Click between 'Monthly' and 'Yearly'	Plan prices and details update accordingly	Functional	Medium	Out of Scope	
SUB-009	View and Identify Current Plan	Ensure current plan is visually identified	User is logged in	Go to Subscription tab	Current plan card shows 'Current Plan' badge	Functional	High	Pass	
SUB-010	Responsive Layout on Subscription Page	Verify subscription page renders correctly across devices	User logged in	1. Open Subscription page on desktop/tablet/mobile 2. Verify layout	UI is responsive; all elements visible and usable	UI/UX	Low	Pass	
NEG-SUB-01	Attempt Upgrade with No Payment Info	Prevent upgrade if card not added	No payment method saved	Click 'Upgrade Plan'	Error: 'Add payment method first'	Negative	High	Pass	
NEG-SUB-02	Cancel Plan Without Subscription	Attempt to cancel when no plan exists	No active plan	Click 'Cancel Plan'	Message: 'No active plan to cancel'	Negative	Medium	Fail	
EDGE-SUB-01	Toggle Plans Repeatedly	Ensure rapid toggling doesn't crash UI	User on tab	Toggle monthly/yearly quickly	UI still responds correctly	Edge	Low	Out of Scope	
EDGE-SUB-02	Subscribe to Multiple Add-ons	Validate performance with all add-ons selected	Add-on area visible	Select all add-ons	All are added without UI or price error	Edge	Medium	Pass	
EDGE-SUB-03	Free Trial Reuse	Prevent reusing expired free trial	Already used free trial	Click 'Start Free Trial'	Error: Trial already used	Negative	Medium	Pass	
EDGE-SUB-04	Scroll Performance on Small Screens	Ensure responsive layout on smaller viewports	Use device emulator	View entire Subscription page	Cards wrap properly without overflow	UI/UX	Low	Pass	

Test Case ID	Title	Description	Precondition	Test Steps	Expected Result	🔍 Test Type	🔍 Priority	🔍 Status	Remark
UPLOAD-001	Upload Valid PDF Contract	Verify user can upload a valid PDF file successfully.	User is logged in and on the upload page.	1. Click 'Upload Contract' 2. Select a valid PDF file 3. Click 'Submit'	File is uploaded and processed for clause analysis.	Functional	High	Pass	
UPLOAD-002	Upload Valid DOCX Contract	Verify user can upload a valid DOCX file successfully.	User is logged in and on the upload page.	1. Click 'Upload Contract' 2. Select a valid DOCX file 3. Click 'Submit'	File is uploaded and processed for clause analysis.	Functional	High	Pass	
UPLOAD-003	Reject Unsupported File Type	Verify system rejects unsupported file formats (e.g., .jpg, .exe).	User is logged in and on the upload page.	1. Click 'Upload Contract' 2. Select an unsupported file (e.g., .jpg) 3. Click 'Submit'	User receives error message about unsupported file type.	Negative	High	Pass	
UPLOAD-004	Upload Large File	Verify the system handles large files within allowed size limit.	User is logged in and on the upload page.	1. Upload a large valid PDF (e.g., 10MB) 2. Click 'Submit'	File uploads and processes successfully.	Edge	Medium	Pass	
UPLOAD-005	Upload Empty File	Verify system rejects empty files with appropriate message.	User is logged in and on the upload page.	1. Select an empty PDF file 2. Click 'Submit'	User receives error about empty document.	Negative	High	Pass With Comment	
UPLOAD-006	Cancel Upload	Verify user can cancel an upload before completion.	User has initiated an upload.	1. Select a valid file 2. Click 'Cancel' before upload completes	Upload is cancelled and file is not processed.	Functional	Low	Pass	
UPLOAD-007	Simulate Slow Network During Upload	Verify upload completes or fails gracefully under slow network conditions.	User is connected to a slow network.	1. Upload a valid contract on slow connection	Upload succeeds or shows timeout/failure message without breaking UI.	Edge	Medium	Pass	
UPLOAD-008	Attempt Upload Without Login	Ensure system prevents file upload when user is not logged in.	User is not logged in.	1. Try accessing upload page directly via URL 2. Attempt to upload file	Redirected to login or access denied.	Security	High	Pass	
UPLOAD-009	Simultaneous File Uploads	Verify system handles or restricts multiple simultaneous uploads.	User is logged in.	1. Start one upload 2. Quickly attempt to upload another file	System either queues uploads or prevents the second until first completes.	Edge	Low	Pass	

Test Case ID	Title	Description	Precondition	Test Steps	Expected Result	🔍 Test Type	🔍 Priority	🔍 Status	Remark
CLAUSE-001	Display Extracted Clauses	Verify that all clauses in a valid contract are extracted and displayed.	Contract has been successfully uploaded.	1. Upload a contract 2. Navigate to clause viewer	All detected clauses are displayed with appropriate labels.	Functional	High	Pass	
CLAUSE-002	Detect Clause Types	Verify system identifies the type of each clause (e.g., Indemnity, Termination).	Contract has been uploaded and parsed.	1. View extracted clauses 2. Observe labels such as Indemnity, Confidentiality, etc.	Each clause is tagged with a correct clause type.	Functional	High	Pass	
CLAUSE-003	Highlight Risky Clauses	Verify risky clauses are visually highlighted in the interface.	Contract includes high-risk clauses.	1. Upload a contract with risky language 2. View clause panel	Clauses identified as risky are highlighted (e.g., red flag).	Functional	High	Pass	
CLAUSE-004	Display Confidence Scores	Verify system shows confidence scores for AI-based clause detection.	AI engine is active.	1. Upload contract 2. View each clause 3. Check for confidence score/indicator	Confidence level shown next to each clause.	Functional	Medium	Pass	
CLAUSE-005	Detect Missing Clauses	Verify system flags when essential clauses are missing (e.g., no Data Processing Clause).	Upload contract with known missing clause types.	1. Upload contract missing a key clause 2. View clause insights	System alerts user about missing clause.	Negative	Medium	Pass	
CLAUSE-006	Handle Unstructured Contracts	Verify system attempts to extract clauses from unformatted or poorly structured text.	User uploads an unstructured document.	1. Upload unformatted contract 2. Observe extracted output	System parses available clauses or alerts about structure issues.	Edge	Medium	Pass	
CLAUSE-007	Clause Summary Display	Verify that a short summary is shown for each extracted clause.	Clauses have been extracted.	1. Upload contract 2. View clause details	Each clause includes a short, plain-language summary.	Functional	Medium	Pass	
CLAUSE-008	Invalid Clause Detection	Verify the system does not falsely detect clauses from non-legal content.	User uploads a document with marketing content.	1. Upload non-contractual document 2. View clause detection output	System does not incorrectly label random paragraphs as clauses.	Negative	High	Out Of Scope	

Test Case ID	Title	Description	Precondition	Test Steps	Expected Result	🔍 Test Type	🔍 Priority	🔍 Status	Remark
EXPORT-001	Export Clause Report as PDF	Verify that user can export a clause analysis report in PDF format.	User has analyzed at least one contract.	1. Open a completed report 2. Click on 'Export as PDF'	PDF file is generated and downloaded successfully.	Functional	High	Pass	
EXPORT-002	Export Clause Report as Excel	Verify that user can export clause data in Excel format.	User has analyzed at least one contract.	1. Open clause analysis report 2. Click on 'Export as Excel'	Excel file is generated and downloaded.	Functional	Medium	Pass	
EXPORT-003	Verify Export File Naming Convention	Check that exported file has meaningful name (e.g., contract_name_report.pdf).	Export is triggered.	1. Export contract report 2. Observe file name	File is named clearly with contract title and date if applicable.	UI/UX	Low	Pass	
EXPORT-004	Prevent Export on Incomplete Analysis	Verify export option is disabled until analysis is complete.	Upload is in progress or failed.	1. Start upload and cancel mid-way 2. Attempt export	Export is disabled or error message is shown.	Negative	Medium	Pass	
EXPORT-005	Validate Export Content Accuracy	Ensure the exported report contains all clause, risk, and compliance information shown on screen.	Analysis is complete.	1. Compare on-screen report with downloaded file	All clause data and tags match the screen view.	Functional	High	Pass	
EXPORT-006	Handle Export Errors Gracefully	Verify that if export fails due to network or system issue, user sees proper error message.	Simulated network delay or failure.	1. Disconnect network 2. Attempt to export	System displays user-friendly error or retry option.	Edge	Medium	Pass	

Test Case ID	Title	Description	Precondition	Test Steps	Expected Result	🔍 Test Type	🔍 Priority	🔍 Status	Remark
COMP-001	Tag Clause with GDPR	Verify that a clause related to data privacy is tagged with GDPR.	Contract includes a clause on personal data handling.	1. Upload contract with data privacy terms 2. View clause tags	Relevant clause is tagged with GDPR compliance label.	Functional	High	Pass	
COMP-002	Tag Clause with HIPAA	Verify that a clause related to healthcare data is tagged with HIPAA.	Contract includes healthcare-related data use clauses.	1. Upload contract with health data clauses 2. View clause tags	Clause is tagged with HIPAA compliance indicator.	Functional	High	Pass	
COMP-003	Multiple Compliance Tags on One Clause	Verify a clause can be mapped to multiple compliance frameworks (e.g., GDPR and SOC2).	Contract contains clauses applicable to multiple standards.	1. Upload such contract 2. View clause compliance tags	Clause is tagged with all relevant standards (e.g., GDPR, SOC2).	Functional	Medium	Pass	
COMP-004	No Tag for Non-compliance Clauses	Verify that clauses not relevant to compliance frameworks are not wrongly tagged.	Contract contains basic clauses (e.g., governing law).	1. Upload contract 2. Check tags for non-compliance related clauses	No compliance tag is shown for irrelevant clauses.	Negative	Medium	Pass	
COMP-005	Incorrect Compliance Tag	Ensure AI does not mislabel clauses with wrong compliance frameworks.	Upload a contract with known tags.	1. Upload contract 2. Verify clause tags 3. Cross-check with legal standards	Clauses are correctly tagged; no incorrect mappings are shown.	Negative	High	Pass	
COMP-006	Compliance Filter Functionality	Verify user can filter clauses by selected compliance tags (e.g., show only GDPR clauses).	Tagged clauses are visible.	1. Click on compliance filter dropdown 2. Select GDPR 3. Review filtered list	Only GDPR-tagged clauses are shown in view.	Functional	Medium	Pass	
COMP-007	Display Compliance Reference Description	Verify each compliance tag includes a tooltip or explanation.	Tagged clauses are visible.	1. Hover over a tag like GDPR 2. Read the tooltip	Tooltip explains the compliance framework in plain language.	UI/UX	Low	Pass	

Test Case ID	Title	Description	Precondition	Test Steps	Expected Result	🔍 Test Type	🔍 Priority	🔍 Status	Remark
UILEGAL-001	Display Legal Disclaimer on Report Page	Verify legal disclaimer is visible at the bottom of the clause analysis page.	User is viewing a completed clause analysis report.	1. Upload and analyze contract 2. Navigate to clause analysis page 3. Scroll to bottom	Legal disclaimer such as 'Not legal advice' is clearly visible.	Functional	High	Fail	
UILEGAL-002	Disclaimer Visibility on All Devices	Ensure disclaimer appears properly across desktop, tablet, and mobile views.	Responsive design is implemented.	1. Open report page on multiple screen sizes 2. Check for disclaimer presence and formatting	Disclaimer is legible and positioned correctly on all devices.	UI/UX	Medium	Fail	
UILEGAL-003	Clickable Legal Terms Link	Verify that disclaimer includes a clickable link to legal terms or privacy policy.	Clause analysis page is visible.	1. Locate disclaimer 2. Click on legal terms link	User is redirected to terms of service or legal policy page.	Functional	Low	Fail	
UILEGAL-004	Truncated Disclaimer Text	Ensure long disclaimers are not truncated or cut off in smaller screens.	Long disclaimer is active.	1. Open clause report on small screen 2. Scroll to disclaimer section	Full text of disclaimer is readable without cut-off.	UI/UX	Medium	Fail	

Test Case ID	Title	Description	Precondition	Test Steps	Expected Result	🕒 Test Type	🕒 Priority	🕒 Status	Remark
CL-001	View Clause Library	Ensure user can see all clauses on page load	User is logged in	Navigate to Clause Library	List of clauses is displayed in grid/card layout	Functional	High	Pass	
CL-002	Filter by Clause Type	Verify user can filter clauses by document/contract type	Clause list is visible	Click on "Clause Type" filter dropdown and select a type	Only clauses for selected type (e.g., NDA) are shown	Functional	High	Pass	
CL-003	Filter by Risk Level	Ensure user can filter clauses by risk rating	Clause list is visible	Click "Risk Level" filter and select High/Medium/Low	Clauses are filtered by selected risk level	Functional	Medium	Pass	
CL-004	Sort Clauses	Verify sorting functionality works correctly	Clause list is visible	Click "Sort by" and select Newest or Oldest	Clauses are reordered based on selection	Functional	Medium	Out Of Scope	
CL-005	Tab Navigation by Category	Ensure tabs like "Service Agreements", "NDAs", etc., work	Clause Library is loaded	Click on various category tabs	Clauses update to match the selected category	Functional	Medium	Pass	
CL-006	View Clause Details	Verify clicking "View Clause" shows detailed clause	Clauses are listed	Click "View Clause" on any card	Clause details open (modal or new screen)	Functional	High	Pass	
CL-007	View Saved Clauses	Check that saved clauses can be accessed	User has saved clauses	Click "View Saved Clauses" button	Saved clauses are listed for review	Functional	Medium	Pass	
CL-008	Save Clauses	Check that clauses can be saved	Clauses details are viewed	Click "Save Clause" button	Viewed clause is successfully saved	Functional	Medium	Pass	
CL-009	Removing Saved Clauses	Check that Saved clauses can be removed	Clauses details are viewed	Click "Remove Clause" button	Removed clause is successfully removed from the saved clauses screen	Functional	Medium	Pass	
CL-010	Copy Benchmark Example	Verify clicking "Copy button" copies example to clipboard	Clauses details are viewed	Click "Copy" on any card benchmark	Clause benchmark example is successfully copied to clipboard	Functional	High	Pass	
NEG-CL-001	No Clauses Found	Ensure UI gracefully handles no matching clauses	Apply a filter with no matching clauses	Apply impossible combination (e.g., Risk: High + Type: NDA with no matches)	Message like "No clauses found" appears	Negative	Medium	Pass	
EDGE-CL-001	Scroll Through Long Filter List	Validate dropdown filters scroll smoothly	Multiple clause types exist	Open "Clause Type" filter and scroll	Filter list scrolls without breaking layout	Edge	Low	Pass	
EDGE-CL-002	Long Clause Title/Text Handling	Ensure layout handles clauses with long titles	Clauses with long titles exist	Browse clause list	Titles/texts wrap or truncate cleanly	Edge	Low	Pass	
EDGE-CL-003	Mobile/Tablet Responsiveness	Check layout adapts on smaller screens	Use mobile viewport	Visit Clause Library and apply filters	UI adapts with readable and usable elements	Edge	Medium	Pass	
EDGE-CL-004	Rapid Filter Switching	Ensure performance during fast filter toggling	Filters are clickable	Rapidly change clause type or risk filters	UI doesn't freeze or break	Edge	Low	Pass

17	B-CL-001	Repetition of contract types			There are repetitions of contract type	There should not repetition of types	Minor	Low		Not a Bug		Chrome 137.0.7151.57 on Windows 11	Bug Video Guide	product AI currently analyzes contracts as expected. However, users may mistakenly or deliberately upload non-contract documents to verify product's efficiency and accuracy. To preserve accuracy and trust, the system should first determine whether an upload is a contract. If it isn't, product should skip clause extraction and display a clear message indicating that the document is not a contract. Example "This file doesn't appear to be a contract, so clause detection was skipped. Please upload a contract document to continue." This was out of MVP scope, but I am recommending prioritizing it for the next phase.
